PROFESSIONAL EXPERIENCE

MERN Stack Developer, *Becodemy (Part Time)*

11/2023 – present
Dhaka, Bangladesh

Visionary Leadership: Shape and execute the company's strategic vision to drive long-term success. Actively contribute as a skilled MERN stack developer and DevOps engineer, playing a key role in the development, deployment, and maintenance of core projects.

Leadership & Team Inspiration: Guided and inspired a highly skilled team of developers, fostering a collaborative and innovative work environment. Encouraged creativity and teamwork, ensuring the adoption of best practices in MERN stack development and continuous integration/continuous deployment (CI/CD) processes.

Commitment to Innovation & Team Growth: Dedicated to shaping both the success of our projects and the growth of our team, ensuring an environment where innovation thrives. As an instructor, mentor aspiring developers, empowering them with the skills and knowledge to excel in the industry.

MERN Stack Developer, *Heilo (Part Time)*

01/2023 – 06/2024
Dhaka, Bangladesh

Innovating in EdTech Development: Contributed to the development of advanced EdTech platforms by leveraging the MERN stack (MongoDB, Express.js, React.js, Node.js) to create dynamic, user-friendly applications. Employed cutting-edge technologies to drive innovation and deliver high-impact educational solutions.

Leadership in Development Teams: Led and mentored a team of skilled developers, fostering a collaborative environment that encouraged creativity and teamwork. Guided the team in adopting best practices for MERN stack development and continuous integration/continuous deployment (CI/CD) processes.

Ensuring Smooth Project Execution: Provided comprehensive technical support across projects, ensuring that development processes and CI/CD pipelines ran smoothly and efficiently. Troubleshoot and resolved issues swiftly to maintain project momentum and deliver high-quality software solutions on time.

Backend Developer, *KWS (Contract)*

11/2022 – 02/2024
Dhaka, Bangladesh

Leadership & Team Collaboration: Guided and mentored a team of 3 backend developers, fostering a collaborative environment focused on innovation and problem-solving. Participated actively in Agile ceremonies, contributing to sprint planning and retrospective meetings to ensure alignment with project goals.

Technical Support & Project Efficiency: Provided technical support to development teams, troubleshooting and resolving issues to ensure smooth project execution. Acted as a key resource for backend-related queries and support, maintaining the efficiency and reliability of software projects.

Mentoring & Strategic Guidance: Offered guidance on backend architecture planning and CI/CD best practices. Mentored junior engineers and aspiring developers, helping them develop their skills in backend development and automation, while also providing insights into industry trends and technologies.

Senior ReactJs Developer, *Digital Gregg (Full Time)* 🌐

03/2022 – 10/2022
USA

REST API Development & Deployment: Developed and deployed full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Enhanced backend performance by implementing RESTful APIs and integrated frontend with backend services for seamless user experience. Deployed applications on cloud platforms like AWS and Heroku, ensuring scalability and security.

Database & Cloud Infrastructure: Designed and managed NoSQL databases using MongoDB to handle high-traffic data environments efficiently. Deployed and maintained cloud infrastructure for applications on AWS, optimizing resources to meet the needs of high-availability systems.

Collaborate Across Technologies: Work with various programming languages, frameworks, and content management systems, with a strong focus on JavaScript, Node.js, React.js, and MongoDB, to build versatile and robust solutions.

Lead & Foster Collaboration: Support and mentor fellow developers, promoting a collaborative and innovative team environment. Encourage best practices and continuous learning to drive creativity and technical excellence within the team.

NOTABLE PROJECTS

Employee Management System 🌐

08/2022 – 09/2022

Project Summary: One kind of SAAS, where the main admin will track employee's login and log-out session time, giving tasks and more.

Login Credentials: both admin

Major Challenges: Tracking user activities in real-time., Automated increases points based on task completion., Automated employee of the month selection.

Technology used:

- **Frontend:** Next Js, Typescript, Tailwind CSS, Redux, Redux toolkit

- **Backend:** Express Js, Jwt, MongoDB (database), Socket.io, Swagger
- **File upload & storage:** Cloudinary, AWS

02/2021 – 11/2021

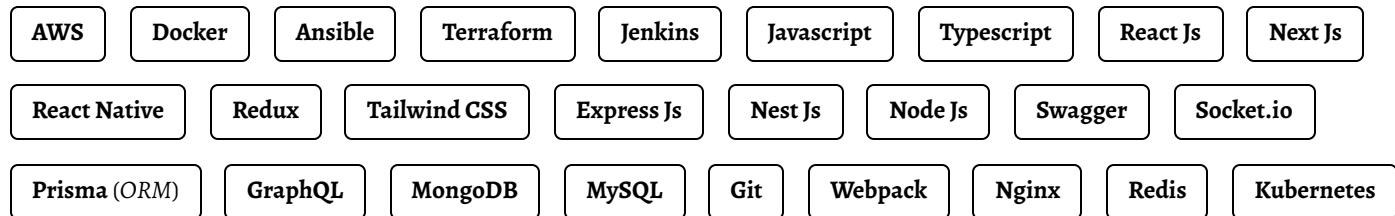

Time Tracking App

I had the privilege of developing a comprehensive time-tracking application for a valued client as well organization.

Key Features:

- ✓ Effortlessly track work hours, project by project, and gain real-time insights into time management.
- ✓ Harnessed the power of React.js to create dynamic, responsive, and interactive components, ensuring a seamless user experience.
- ✓ Generate detailed reports to analyze time allocation
- ✓ TimeWise seamlessly integrates with Firebase, ExpressJs, providing a secure and scalable back-end for data storage, authentication, and real-time updates.

SKILLS

ABOUT MYSELF

I am a self-taught and passionate Web Application Developer specializing in **MERN Stack** Web Development and **DevOps**.

With experience as a Full-Stack Developer, I excel in converting Figma designs into responsive websites and bringing them to life using React.js. Since 2020, I have been adept at developing scalable REST APIs with Node.js, Express.js, Nest.js, MongoDB, and MySQL, and seamlessly integrating them with front-end technologies.

Since 2024, I have been expanding my skills in DevOps, focusing on deployment, continuous integration, and continuous delivery (CI/CD) processes.

COURSES

Think in a Redux Way, *Learn with Sumit (Lws)*

Learnt redux, react-redux, redux-toolkit, redux-thunk, RTK Query, obtained about 96 percent score, and was able to obtain "Star Performer" badge.

02/2023 – 04/2023
Dhaka, Bangladesh
